- 6 Myform Extension cm 8
- 7 Myform Air cm 5,5
- 8 Myform Extension Extra Soft
- 9 Organic cotton and Ingeo

### **Myform Memory Clima**

Designed for positioning on the outermost mattress layers, thanks to a specific application that leverages nanotechnologies to maintain a constant contact temperature between body and mattress.

### **Myform Memory Air**

Thanks to its innovative molecular structure, it combines excellent adaptability to body shape with unbeatable breathability, guaranteed by the high level of porosity and open cell structure.

### **Elegance Cover**

Elegance and comfort converge to create a technically evolved cover in which richly filled layers are enclosed by an exclusive, solid and resistant side band system.

### **Fabric**

All the purity of organic cotton, grown without the use of pesticides, combined with the softness of viscose and the elasticity of polyester microfibre, in a fresh and soft fabric.

### **Fibersan treatment**

A natural lavender and eucalyptus treatment prevents the proliferation of mites, maintaining a high level of cover hygiene.

### **Padding**

The technology and freshness of soft MyForm Memory Clima on one side, combined with the freshness guaranteed by cotton and the resistance of Ingeo, on the other side.

### **Removable Cover**

The zip fastening around the edge enables the cover to be divided into two parts, for easy and practical washing.
